Easter, More Than Easter Eggs And Chocolate Bunnies

Easter is the most important religious feast in the Christian liturgical year. Christians believe that Jesus was resurrected from the dead 3 days after his crucifixion, and celebrate this resurrection on Easter Day or Easter Sunday.

Easter also refers to the season of the church year called Eastertide or the Easter Season. Traditionally the Easter Season lasted for forty days from Easter Day until Ascension Day but now officially lasts for the 50 days until Pentecost.

The first week of the Easter Season is known as Easter Week or the Octave of Easter. Easter also marks the end of Lent, season of prayer and penance.

Easter is a moveable feast, meaning it is not fixed in relation to the civil calendar. Easter falls at some point between late March and late April each year following the cycle of the moon. After several centuries of disagreement, all churches accepted the computation of the Alexandrian Church (now the Coptic Church) that Easter is the first Sunday after the Paschal Full Moon, which is the first moon whose 14th day (the ecclesiastic "full moon") is on or after March 21st (the ecclesiastic "vernal equinox").

Easter is linked to the Jewish Passover not only for much of its symbolism but also for its position in the calendar.

Many cultural elements, such as the Easter Bunny, have become part of the holiday's modern celebrations, and those aspects are often celebrated by many Christians and non-Christians alike.

Have a wonderful Easter celebration with all the special people in your life.
